PROJECTS:

Github Link : <https://github.com/Brama13>

Project Title: **Infinite Image Gallery**

- In this infinite image gallery by taking image API provider we can load infinite number of images by lazyloading feature and the image results are rendered
- Link: <https://brama13.github.io/Projects/infiniteimagegallery>

Project Title: Quiz Application

- In this quiz application the questions and answers were fetched from the JSON and whenever the user click on the option the answer is correct or not will be checked from the JSON results and timer functionality is also added for each and every question
- Link: <https://brama13.github.io/Projects/quiz2/>

Project Title: Search and Display using API

- The search functionality is implemented in this project where it takes the data from the input field and passed to fetch the data from the API and the search results are displayed.here we implemented University searcher by country name
- Link: <https://brama13.github.io/Projects/universitysearcherusingapi/>

Project Title: Portfolio Website with responsiveness

- Created a small Portfolio Website with responsiveness by using css media queries with different display sizes
- Link: <https://brama13.github.io/Projects/portfolioresponsive/>
